

# North Wilts Therapy and UK Counselling Online

North Wilts Therapy are one of our first customers and the most established as a business. Mark found us in a local publication when he first passed his hypnotherapy diploma over 8 years ago.

Mark wanted a website reflecting the ways in which hypnotherapy could benefit his prospective customers. He has since passed his therapy diploma and this information has also been added to the website.

With so much business being done online, Mark decided this year to offer an online counselling service, so UK Counselling Online was born. UK Counselling Online offers counselling services only and payment is made via the Paypal secure payment system.

We have also designed advertisements for North Wiltshire Therapy and these have been used in several publications.
